

I benefit from from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides me with variety and quality that are not available elsewhere. I pay for these services, therefore, it should not be up to the National Association of Broadcasters to dictate what you are permitted to hear. I respectfully request that the FCC reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.
